EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The IDS received 3/11/02 has been deleted.

As applicant points out in the After Final Amendment, this IDS is an anomalous IDS and does not belong with the instant case. The golf patents listed therein should not appear on the face of the patent issued in the instant case.

103 Rejections Withdrawn

The rejection of claims 1-54 and 56-82 under 35 USC 103(a), outlined in the previous Office Action, has been overcome by applicant's amendment.

Art Unit: 1621

With respect to (independent) claims 56 and 57, as applicant correctly points out, the rejection was improper. These claims should have been included with (independent) claim 55 as allowed claims. The compounds described had been encompassed by the examiner's search of all compounds and were free of the prior art. The examiner regrets the error.

With respect to the remaining claims, applicant has narrowed the independent claim, as suggested by the examiner, such that it no longer reads on the cited prior art.

Allowable Subject Matter

Claims 1-82 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art is the prior art of record. Applicant's claims no longer encompass that art. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the compounds of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
